## **Hakvoort**

A scale model of Hakvoort's latest launch Perle Bleue will be on display. She is a 38 meter twin screw ocean going motoryacht with a steel hull and aluminium superstructure.

The yacht has an ideal length and layout for chartering carrying 10 guests including the owners, and offering accommodation for a captain and six crew members. Her main deck features a full-beam master stateroom plus a saloon and dining area and a beach-type lounge on the bridge deck. A wealth of outdoor relaxation facilities include large open seating areas on the aft decks and a sun deck with bar, Jacuzzi and pads.
