## ATTESSA IV

(ex-Evergreen) 99.97m

Originally built for Yung-Fa Chang, chairman of Taiwan-based shipping company and airline Evergreen, in the company's shipyard in Nagasaki, Japan, this yacht was used in both private and corporate functions. While her outside areas are minimised due to her use and the climate of her home waters, her five-deck interior offers a huge dining saloon, main saloon, karaoke saloon with dance floor and conference room. She accommodates four in the master suite, and 26 guests in 14 guest cabins. The yacht is now owned by American businessman Dennis Washington and has been lengthened in a comprehensive refit. (BI 154; SY 13)
